KEMBOI K. DAVID

DATA ANALYST|BUSSINESS ANALYST

Westland, Nairobi | +254 724 006 182, |Dkemboi888@gmail.com ,| **Linkeld Profile**

PROFESSIONAL SUMMARY

Data and Business Analyst with 4+ years of experience designing and delivering analytics solutions across healthcare, consulting, and sportsbook environments. Experienced in data modeling, ETL pipelines, statistical analysis, and visualization using SQL, Python, Power BI, Tableau, and cloud platforms. Adept at transforming complex datasets into insights that drive operational efficiency, performance optimization, and strategic decision-making.

WORK EXPERIENCE

BUSINESS ANALYST |SPORTSERVE, Nairobi County **Jul-2025 – Present**

- Collaborate with Marketing, Business Intelligence, QA, Operations, and Product teams to gather, analyze, and document business and operational requirements across sportsbook platforms.
- Analyze large-scale games and player data using advanced SQL queries and BI tools (e.g., Looker Studio) to build dashboards tracking key KPIs such as Turnover, Gross Gaming Revenue (GGR), Net Revenue, Bonuses, and Player Activity.
- Translate complex analytical findings into clear, actionable insights for non-technical stakeholders through reports, dashboards, and presentations, enabling data-driven decision-making in sportsbook operations.
- Extract data from proprietary back-office and sportsbook platforms, applying data cleansing and transformation techniques including deduplication, null handling, schema normalization, and standardization.
- Conduct regular data quality audits on reporting outputs, identifying and resolving discrepancies in betting data (e.g., stakes, wins, losses, bonuses) to maintain high data accuracy and regulatory compliance.
- Work closely with QA teams to validate data consistency between front-end sportsbook systems and back-office reports, ensuring reliable KPI reporting for internal and external stakeholders.
- Document business processes, data definitions, KPIs, and reporting logic to improve transparency, consistency, and knowledge sharing across analytics and operations teams.
- Deliver ad-hoc analyses related to sportsbook performance, regulatory reporting, and operational investigations, providing timely insights under tight deadlines.

DATA ANALYST |AMREF KENYA, Turkana County **Nov-2024 – Mar 2025**

- Delivered actionable insights by conducting comprehensive analyses of health-related data, leading to a 13% improvement in data-driven decision-making within the HSS directorate and AMREF at large.
- Improved data integrity by implementing rigorous data quality assurance processes, cleaning techniques, and validation checks, achieving data accuracy rate and reducing data errors by 30%.
- Enhanced strategic planning by utilizing statistical modeling and forecasting to predict health system needs, optimize resource allocation, and project intervention outcomes, increasing resource efficiency by 25%.
- Facilitated data-driven decisions by creating interactive dashboards and compelling visualizations, improving stakeholder understanding and engagement.
- Strengthened collaboration by engaging with cross-functional teams - including healthcare professionals, donors, and policymakers - resulting in a 15% increase in the adoption of evidence-based strategies.

- Promoted a data-centric culture by providing technical support and training to AMREF staff, improving data proficiency by 35% across teams.
- Developed and maintained efficient data pipelines for extraction, transformation, and loading (ETL) processes, reducing data processing time by 50% and ensuring timely data availability for analysis.

DATA ANALYST | CONSULTANT , Nakuru **Sep 2023 – Nov 2024**

- Extracted, cleaned, and transformed data to enhance accuracy by 65% and reduce data inconsistencies.
- Automation Tools Development: Design and develop automation tools to streamline day-to-day activities, enhancing efficiency in data-related processes
- Developed and launched 10+ predictive models that accurately forecasted industry trends, increasing clients' proactive decision-making capability.
- Data Availability and Data cleaning: Ensure required data for reporting is available in a format easily consumed by analytics, overseeing data accuracy and integrity.
- Data Visualization - Developed and presented clear and insightful visual representations of data, enabling stakeholders to grasp complex information easily.
- Data Manipulation **-** Skilled in data manipulation using SQL, Pandas, and NumPy.
- Data Reporting - Experienced in creating comprehensive data reports to support business decisions and provide actionable insights.

DATA ANALYST (Attachment) **| MURANG'A COUNTY HEALTH** **05/2019 - 04/2020**

- Ensured 90% data accuracy and integrity through meticulous extraction techniques, positioning the hospital for precise data analysis.
- Develop and maintain business intelligence documentation, training materials, best practices, and an overall data toolkit.
- Consistency and Accuracy: Ensure consistency, accuracy, and overall integrity of hospital metrics through meticulous data management practices.
- Derived meaningful insights from vast datasets, aiding hospital administrators in shaping strategic directions based on data analysis.

EDUCATION

Certificate in Data Analytics 01/2024 - 12/2024
Turing College - Lithuania
Grade: Distinction

Bachelor In Business Information Technology 01/2020 - 08/2024
Mount Kenya University – Thika, Kenya
Grade: Second Class upper Division

Diploma in Business Information Technology 01/2018 - 01/2019
Mount Kenya University – Thika, Kenya
Grade: Credit

SKILLS

Technical skills

- A/B Testing & Statistical Analysis: Data Modeling, Machine Learning Algorithms, Statistics
- Data Visualization: Tableau, Microsoft Power BI, Microsoft Excel Excel, Looker Studio
- Databases & ETL : MySQL, PostgreSQL, SQL Server, Google Big Query, Oracle
- Big Data & Cloud: Google BigQuery, Cloud-based analytics AWS
- Data Cleaning: Pandas, Numpy, Microsoft Excel, MySQL
- ETL & Data Cleaning: SQL, Python, Excel
- Languages: Python, HTML, PHP, Java script
- Version Control Git
- Nvivo, KoBo, ODK

Soft Skills

- Communication, Team Work, Problem solver, Honest, Team Management, Loyal

CERTIFICATIONS

- SQL for Data Analysis - Linkeld Certification , 365datascience Certification
- Data Analytics – LinkedIn Certification,
- Python Programmer Bootcamp – Certification, 365Datascience,
- Data Visualization – Certification
- Microsoft Excel Pivot tables - Certification
- SQL + Tableau + Python - Certification

PROJECTS

- **Machine learning Algorithm – Linear Regression**
- **Health Centre Analysis - Analysis - Pandas, Numpy**
- **Visualization –** Call Centre Dashboard, Human resource Dashboard- PowerBi
- **Data Cleaning –** FIFA 21 Dataset – Data cleaning
- **Customer Analysis** - Danny restaurant - MSQL
